

Teacher: Susan Boone

Class Taught: Web Mastering

October 13-17, 2008

Detailed lessons are linked online:

<http://hs.houstonisd.org/westsideds/Curriculum/WebMastering/index.html>

Tutorials: Thursday after school 3:15-4:00 or Wednesday during A and B lunch. *(also by appointment)*

Monday	Objective: Students will divide the designing and creation of a Web page into HTML and CSS pages.
	Activities: Have students create the CSS file on the right side of the chart below. Create an .html document and include in the head element a link to the myNewStyle3.css document. Experiment with the code segments to analyze the results of the style sheet. Introduce the work sheet (S.1.1.WS_5CSS) to the students to ensure that they understand the process and objective. Monitor their work as they experiment with the CSS document to discover the correct coding solutions.
	Materials: Computer Lab, Internet Access
	Follow Up/HW:
Tuesday - END OF SIX WEEKS 1	Objective: Research and Include the following meta elements:"author","copyright","date" ,"description" ,"keywords". Crete index.html for first web site.
