Class: Web Mastering

Detailed lessons are linked online: <http://hs.houstonisd.org/westsidehs/Curriculum/WebMastering/index.html>

Tutorials: Tuesday and Friday of this week and after school 3:15-4:00 or Wednesday during A and B lunch.

Monday	<p>Objective: Student Objectives Students will</p> <ul style="list-style-type: none"> • Publish a flash movie. • Follow a set of technical directions to create an html file using javascript. • Create navigation buttons to allow easy access to various web files in a web site. <p>Activities:</p> <p>Complete assignment – Publish Your Fairy Tale – handout in class. Students should use their story board to create a flash movie.</p>
	<p>Materials: networked computer lab, student folders on server</p>
Tuesday - Thursday	<p>Objective: Flash Introduction for Portfolio</p> <p>Activities: Create a storyboard for the introduction for the Web Mastering Portfolio. The intro should describe your work in the Web Mastering Class, and showcase your skills. There is no set length, but pace yourself so you can create the intro in the time give. May 7 - 9 should be spent developing scene 1 of the introduction. This can be any type of movie you choose. The scene should contain text for letting your audience know what they are viewing, have a certain style that you have chosen, and highlight your personality. You must include a skip intro button and sound in this file. The movie will be created next week. It will lead to each of the projects that you have completed content.html will complete the Portfolio introduction. This is a web page that contains a Flash Movie that has 'buttons' that access the each of the semester's projects. See list below for proper filenames. These are the ones that were assigned in class. You may need to actually look in your folder. Some of you did not use the file names that were suggested.</p> <ul style="list-style-type: none"> ▪ First Web Project - URL: first/index.html ▪ Mutant - URL: mutant/index.html ▪ Beaches - URL: beaches/index.html ▪ Client -- ?????/index.html ▪ Flash - URL: flash/index.html <p>Add sound to your intro if time..</p>
Friday –	<p>Objective: Use Window Explore to ftp all files needed for the “Microsoft” project</p> <ul style="list-style-type: none"> • Create a mapping of the files used in your ‘Microsoft’. Include this map in your notebook. List all html files and images associated with each page. These are the ONLY files that will actually be transferred to the whstech site. • FTP to whstech.com using the appropriate login and password. FTP all files needed
